## Rice Market Report

**Italy:** To begin with, a Happy New Year 2024, all our wishes for happiness, health and personal as well as professional success!

The markets have resumed this week, it seems that after these last 2 months during which there was more or less work for everyone, today the situation is again more difficult. Not many requests and therefore not much work for the rice mills.

Officially the price of Indica paddy is listed at €480/mt but in reality, farmers refuse to sell it below €500/mt. Concerning the Baldo/Cammeo, it is said on the market that it is impossible to find. This is not due to a lack of paddy but rather to the fact that to date, the quantities available are at the same levels as those available last year at the same period, only last year the price of paddy was between €900 - €1000/mt while to date it is around €800/mt. Farmers would therefore like to obtain a higher price level.

It was reported on the Vercelli market price list on Tuesday: "For the current week, the Commission notes nominal values for all varieties of paddy rice".
