Rice Market Report

Italy: At the Vercelli market, paddy Terra, Omega, Sole, Indica, long A, Carnaroli / Carnaroli type prices are all officially listed with a reduction of €50/mt. Note that the Milan market did not list the same decrease for Indica paddy indicating only -€20/mt.

These price decreases are explained by the fact that it has been 2-3 weeks that the rice mills have not bought paddy and the drought no longer seems to worry the farmers, now they want to sell, however the rice mills have no request...

To be seen now, if business resumes, will these prices remain or will they immediately increase again.

It is therefore difficult now to make prices for finished products because the exact situation of the market is not clear yet.

Prices for by-products continue to come down a bit.
