Rice Market Report

Italy: Farmers have been able to work in the field this week, but not as much as we hoped, since they have had rain and must always wait 1-2 days that the rice dries before resuming cutting. They are mostly cut long A, Lunda, Dardo. A little bit of Indica, Arborio and Baldo. In other words anything except round and Loto.

As there are 36% less Indica compared to the previous crop, the rice mills no longer believe in a decrease in the price of paddy.

Regarding the round paddy, nobody knows what will happen. We should have more of it, but even today the farmers are not sell under €320/MT. Wherever possible millers who can prefer to wait and see what will happen in the coming weeks.

Broken, let's say the by-products in general are difficult to find.
